WANDERBOX AND COM.X

Secure Business Communications.
Any device. Any place.

 wanderweb.net

Far South Networks is a leader in the **IP PBX and VoIP Gateway market**. This **Proudly South African** company, provides the SMME with a platform supporting a flexible and powerful **“3-in-One” feature package** for managing voice and data service delivery with **unparalleled quality and security**.

The **Wanderbox and Com.X product lines** enables a business to leverage the benefits of **VoIP using a TDM Gateway**. Thereafter, the same device supports services and feature upgrades for converting the same device into a **full featured IP PBX**, including cloud based **Call Center, Call Recording and UCaaS**.

www.farsouthnet.com

SOLUTIONS

Offering **VoIP connectivity** and a **rich communications service** for the SMME user, coupled to a **Unified Communications platform** with unbridled **BYOD (Bring Your Own Device) mobility**
